Longest foreign body removed from the spine

Dr Saraj Kumar Singh, Chief Surgeon, and Dr Kranti Bhavana, Assistant Surgeon, along with their assisting team, removed a fish bone measuring 35 mm x 02 mm from the cervical spine of a 42-year-old male patient on 09 March 2025 at the neurosurgical operation theatre, AIIMS, Patna, Bihar. The surgery took place between 9:00 am to 1:05 pm, lasting four hours and five minutes.
